PROFILE

Senior Product Manager specializing in platform and data-driven products across fintech and consumer domains. Proven track record of launching ambitious 0-1 projects, driving revenue growth (\$10M+), reducing operational costs, and scaling systems supporting millions of users. Background in software engineering enables deep collaboration on complex technical systems.

EXPERIENCE

Senior Product Manager, *Haventree Bank*

Jun 2025 - Present

Led the Core Trust and Growth product portfolio for the launch of a new digital bank in Canada.

- Launched fraud and AML platform capabilities by leading a cross-functional team of 12; improved risk coverage, strengthened operational controls & reduced need for manual review.
- Delivered a compliant document generation framework supporting tax forms, account documentation, and customer communications required for Canadian banking and government reporting obligations.
- Led development of internal support tooling integrating core banking systems, enabling agents to efficiently manage customer accounts and reducing handling time.
- Built the product analytics framework and KPI system for the bank's end-to-end customer journey, enabling post-launch performance tracking, funnel optimization, operational monitoring, and data-driven product investment decisions.
- Embedded generative AI into discovery, requirements, and analysis, increasing personal delivery capacity, enabling ownership of a broader product portfolio.

Product Manager, *Sportsnet*

Apr 2022 - Jun 2025

Oversaw product vision, roadmap, and development for the Sportsnet+ OTT direct to consumer streaming service leading to over 350% subscriber growth.

- Led six month project focused on product stability and performance.
 - Streaming quality metrics (buffering, errors, user exits) improved by 48%.
 - 10% increase in Net Promoter Score.
 - 21% reduction in Subscriber Churn.
- Launched in-stream ad platform
 - \$10M+ annual revenue, establishing a new monetization channel for live content.
- Redesigned purchase flow informed by user interviews and experimentation.
 - 39% increase in Cart Size
 - 19% increase in Lifetime Value
- Drove a service wide video engineering replatform.
 - 20% decrease in annual Opex
- Rebranded service from SN Now to Sportsnet+.
 - 17% increase in brand recognition.
- Launched net new single event "Pay Per View" events.
 - Over \$1m in annual revenue with 0 additional Opex.

Product Manager, *Loblaw Digital*

Dec 2020 - Apr 2022

PM for PCid, a unified login service for all of Loblaw's digital properties, with over 1M daily users.

- Launched experimentation on PCid to allow for greater data driven decision making.
 - Using A-B testing collaborated with leadership to avoid \$2m in revenue loss on a security integration.
- Launched single sign-on for all PCid businesses.

- Research showed low brand awareness with the public resulting in missed opportunities for synergies between Loblaw brands.
- Led scoping to ensure we were able to release in a timely manner, while meeting user needs and specific portfolio requirements.

Intermediate Software Developer, Loblaw Digital

Nov 2018 - Dec 2020

- Intermediate Developer on Loblaw's design system using React and nodeJS.
- Junior Developer on internal tools teams using nodeJS, Contentful, and Kubernetes.

Software Developer, WhoPlusYou

Oct 2017 - Aug 2018

- Software Developer on core product using Laravel and React.
